A Message From the President

Dear League Members,

We don't typically publish a July newsletter to give our fantastic Communications Chair, Jessie Coffey, a summer respite, but a lot has happened since I was elected at last month's Annual Meeting that I wanted to share with you. Thank you Jessie for your indulgence.

I had a full immersion into League democracy at the national LWVUS convention last week in Chicago. As one of the 867 convention delegates and your representative I voted along with others to approve the LWVUS Program for 2018-20, the League's statement of positions it supports.

We voted to renew as amended The Campaign for Making Democracy Work® - our signature focus to ensure a free, fair and accessible electoral system for all eligible voters by concentrating our energies on:

- Voting Rights
- Improving Elections and Advocacy for the National Popular Vote Compact
- Campaign Finance/Money in Politics
- Redistricting Reform

We agreed on many other advocacy priorities including:

- Support for a set of climate assessment criteria that ensures that energy policies align with current climate science
- A reinforced lobbying effort on gun control measures
- A reaffirmed commitment to the constitutional right of privacy as an individual to make reproductive choices.

A summary of the convention and actions taken can be found [here](#). As I'm confident you agree, the need for our work in these areas is more important than ever.

Other convention highlights included meeting the new LWVUS Executive Director, Virginia Kase, former COO of CASA, the largest Latino and Immigrant rights organization in the mid-Atlantic region. *(Pictured above with LWV President Chris Carson)*

Training focused on the [LWV Transformation Roadmap](#) for the Future to position the League for the next century. The Roadmap recognizes, among other things, that to succeed we need to grow our membership to better resemble our diverse national population.

But for us Ohioans, the biggest thrill was the announcement that **OHIO WON** the League's State award in the category of Strengthening Democracy for our redistricting reform effort! Take a bow one and all. Of course the real reward we anticipate is down the road with a fairer, more representative redistricting process.

Back here in Akron, Rosanne Winter, Voter Service Co-Chair, is planning a roster of voter registration opportunities. Look for SignUpGenius requests for volunteers in your Inbox.

Take Action: Citizen Question is Bad for the Census

Shared from lwv.org

U.S. Commerce Secretary Willbur Ross has chosen to include a question on the U.S. Census pertaining to citizenship. Including this question on the Census will discourage participation and impact the data collected in every community across the country.

This decision is bad for the census, bad for our communities and bad for America.

The Census occurs once every ten years, so it is imperative to get the most accurate count. Every community relies on Census data — from apportioning our national representatives to making decision about public safety and neighborhood resources — this information impacts every aspect of our lives.

A fair and accurate count lets our leaders and businesses make sound investment decisions that keep our communities thriving.

Including a citizenship question on the Census undermines the rights of eligible voters and threatens a process vital to our
