

Shale Gas Extraction

And Your Health

**Sponsored by the
League of Woman Voters of the Akron Area and
Sierra Club Portage Trail Group**

Many communities are living with oil and gas wells, compressor stations, processing plants and pipelines. More than ever people are asking whether this development affects their health.

Presenter:
Heather Harr, Project Director
League of Women Voters PA, Straight Scoop
on Shale

Thursday April 14th

7 PM

Unitarian Universalists

Church of Akron

3300 Morewood Rd. Akron

Attend this public event and get answers to questions such as:

What are the links between oil and gas pollution and health?

What pollutants come out of compressor stations and processing plants?

Each participant gets a copy of Shale Gas and Public Health Resources Guide
